

Materials Science

Graduate Certificate in Engineering: 12 credits / 4 courses

Students pursuing a Graduate Certificate in Engineering must complete the following courses:

Materials Science Core Courses (take three):	
	ENMA461 Thermodynamics of Materials
	ENMA650 Nanometer Structure of Materials
	ENMA661 Kinetics of Reactions in Materials

Materials Science Pre-Approved Technical electives (choose one):	
	600-level ENMA Course

NOTE: Any courses not listed above must be approved by the Senior Academic Advisor **PRIOR** to registration.
